

ASSA ABLOY PRESENTS:

# The Intelligent Openings Showroom

SPONSORED BY:

Door Security Solutions® of the Rockies & Professional Systems Technology

Discover how to implement locking solutions that provide the right level of security to protect specific assets behind each door. The ASSA ABLOY Intelligent Openings Showroom presents an overview of security technologies ranging from simple mechanical locks to the latest highly intelligent locking solutions. Advancements in security technology give end users a full range of options to secure their facility.

- Mechanical locks and keys
- Keypad locks for home and office
- Offline locks and eCylinders with audit trail functions
- Locks that connect to an IP network through WiFi and Ethernet connections
- Open-architecture Integrated Wiegand locks and strikes that operate off third-party software
- Campus security locks in offline, IP and WiFi configurations
- Intelligent doorway components—lock, power operator, electric strike, credential reader, switch—that connect, communicate and continuously relay their status to a security network
- Higher security with architecturally pleasing designs
